AGE DETERMINING DATE

The gymnast's age for the competitive season is determined by the date of the final day of competition at the culminating championship meet for that level.

The gymnast must compete in USAG meets in the SAME AGE DIVISION for the entire season. It is the COACHES RESPONSIBILITY to indicate the athlete's birth date and correct age for the season on the entry form. A gymnast must compete with the age division as designated, OR her scores are invalid for that meet; however, the score achieved may be used for level mobility.

Based on the above statements, the following dates must be used to determine the age division of Michigan gymnasts.
